

AMS – Amsterdam

Oostvaardersdijk 1-3 Lelystad
The Netherlands

QuadraNet's Amsterdam facility fulfills OHSAS 18001, SOC 1 Type 2, PCI DSS, SOC 2 Type 2, ISO 9001:2015, ISO 14001:2015, ISO27001, and ISO 50001 certification requirements; meeting and exceeding sought-out compliance requirements for even the most stringent industries.

This European-based data center features fail-safe power infrastructure that allows for clients to receive fully-conditioned raised-floor space with a 100% power uptime service level guarantee; ideal for businesses looking to expand to Europe, or migrate infrastructure from an existing European data center. With access to the major region-based internet exchanges like AMS-IX and NL-ix, you are assured that network connectivity options are optimal and diverse within QuadraNet's new Amsterdam facility.
